SUMMARY

Computer Science graduate and full-stack web developer with 6 months of professional experience building modern web applications using React.js, Node.js, and Socket.IO. Skilled in developing RESTful APIs, real-time features, and responsive user interfaces, with hands-on experience delivering data-driven solutions through real-world projects. Strong foundation in JavaScript ecosystem, problem-solving, and collaborative development. Passionate about continuous learning and contributing to high-impact engineering teams.

EXPERIENCE

Kotibox Global Techonology OPC Pvt ltd
MERN Stack Developer

Jaipur, Rajasthan
Aug 2025 - feb 2026

GIP Technologies Pvt Ltd.
MERN Stack Developer(Intern)

Jaipur, Rajasthan
Mar 2025 - Sept 2025

EDUCATION

Poornima Institute of Engineering and Technology
Computer Science Bachelors of Technology

Jaipur, Rajasthan
Oct 2021 - May 2025

SKILLS

Languages:	C++, JavaScript
Frontend:	HTML5, CSS3, Tailwind CSS , React.js
Backend:	Node.js, Express js
Tools:	Git, GitHub, VS Code
Database:	MongoDB
Deployment:	Vercel , Netlify

PROJECTS

Xoto-RealEstate

Html, Tailwind Css, Javascript, ReactJs,NodeJs,Express Js

- Developed the frontend of a multilingual real estate platform, Xoto Real Estate, focusing on responsive UI development and API integration. Built the user interface using modern web technologies and connected dynamic backend APIs to display property listings and real-time content updates. Implemented a language-switching system that allows users to view the website in 12 different languages, with automatic content translation and seamless UI adaptation. Focused on performance optimization, clean design, and smooth navigation to enhance user experience. This project demonstrates strong skills in frontend engineering, internationalization, and scalable web architecture.

Chat Web App

Html ,Tailwind Css, Javascript, ReactJs,NodeJs,Socket Web.io

- Developed a full-stack real-time chat application with instant messaging capabilities using React.js and Tailwind CSS for the frontend and Node.js with Socket.IO for the backend. Implemented WebSocket-based communication to enable live message updates without page refresh, ensuring

a smooth and responsive user experience. Designed REST APIs for handling user interactions and chat data while focusing on performance, scalability, and modular architecture. The project demonstrates strong understanding of real-time systems, frontend-backend integration, and modern web development practices.

Gemini AI Clone

Html, Css, Javascript, APIs

- Developed a full-stack clone of Google's Gemini AI (Chatbot) to simulate intelligent conversational capabilities, context-aware responses, and real-time AI interactions. The system mimics core functionalities of leading AI assistants.

Portfolio

Html , Css , tailwind, React Js

- Optimized web page loading time by 30%, resulting in a 20% increase in user engagement and faster navigation speed.

Skill-X Training Academy

Html, Css, Javascript

- Kotibox Skill-X Training is a professional IT training platform focused on developing industry-ready talent for the modern technology sector. The program provides hands-on learning, real-time project exposure, and skill development in various IT domains.

ACHIEVEMENTS

- Attended "The Smart City Hackathon" in Poornima Institute Engineering and Technology, a whole Night we stayed and build a Job website and Learned a lot!

CERTIFICATES & TRAINING

- Techniest limited, Full stack mern development (11/2023)
- Digisense Infotech Pvt ltd (08/2024)
- GIP Technologies Pvt ltd. (03/2025- 03/2025)
- KotiBox global technology (08/2025-10/2025)
